

Our Motor Home Renovation 2012

By Truline RV in Spokane, WA

04.07.2012

Original layout with hide-a-bed couch, swivel recliner and oven.

The old couch was removed and replaced with two Lazy Boy recliners & a custom cabinet between. The drawer has a removable Corian slab for the Beer Holder

Replaced the Oven with a new Cook Top and put in 3 new drawers below for more kitchen storage

Took out the old 300# overhead TV and made it into a cabinet with adjustable shelves

New Cabinet to accommodate the 32" LED TV, Sat. Receiver, Blue Ray, File Drawer, Computer Storage and Printer Shelf

The TV raises and lowers into the Cabinet by remote and the Corian Keyboard Tray slides in when traveling

The old 300# TV in the bedroom was removed and a new 26" LED TV was installed into a door frame to open up a new storage area behind the TV.

Notice the new Brown Carpet and the new Roll-up Window Blinds/Sunscreen

Reno has changed the whole look of the interior
