

2016 DUTCH STAR WHAT'S NEW FOR 2016?

FLOOR PLANS

- Total number of Dutch Star floor plans for 2016 total 10 models (down from 13 in 2015).
- The Dutch Star 3736, 4002, 4018, 4311, 4312, 4313, 4369 and 4381 have been carried over from 2015 to the 2016 model year.
 - The 4369 will feature a sofa w/ Televator on the door side standard instead of the bar with stools and Televator. This was the other way around in 2015.
- The Dutch Star 3745, 4360, 4366, 4372 and 4375 models were discontinued for 2016.
- There are two new floor plans for 2016:
 - Dutch Star 3726:
 - This new Dutch Star model has a full wall slide on the door side of the coach.
 - The off door slide room contains an 87" side folding hide-a-bed sofa and recliner standard.
 - The living portion of the full wall slide on the door side has a hide-a-leaf table with large buffet and LED TV with power lift ("Televator") across from the sofa and recliner.
 - A roomy and functional L-shaped galley with refrigerator and pantry are located just forward of the dining area.
 - The 3726 has an enclosed bathroom with shower, commode and vanity, as well as a small linen cabinet.
 - The rear bedroom features a king bed standard, along with LED TV, dresser drawers and a full wardrobe along the entire rear wall that can also offer an optional two piece washer and dryer.
 - Dutch Star 4041:
 - The Dutch Star 4041 model is a new full wall slide bath and a half model offering a new microwave location and new pantry design with hinged swing out boxes.
 - The dining area is located on the door side facing the patio, and features an LED on a power lift ("Televator") that comes up from the buffet.
 - Also located in the door side slide are the uniquely designed pantry, refrigerator and a second pantry that is replaced when a larger (optional) refrigerator is selected.
 - On the off door side (in the full wall slide) are a 92" hid-a-bed sofa directly across from the dining area and TV, as well as a roomy galley and pantry with more hinged swing out boxes.

FLOOR PLANS (continued)

○ Dutch Star 4041 (continued):

- The microwave is not located above the cooktop as is common in the RV industry, rather it is located
- A half bath is located mid-ship.
- The master bedroom suite has a king bed, shirt wardrobes and an LED TV.
- The master bath area is at the far rear of the coach, with a 36" radius shower, hanging wardrobe and a second wardrobe that could house an optional 2-piece washer and
-

APPLIANCES AND ACCESSORIES

- The dash radio has been greatly improved for Dutch Star in 2016 with a Harman JBL 180 watt sound system with 4 dual speakers located in the ceiling above the driver and passenger seats.
- The 32 gallon propane tank has been replaced with a 22 gallon version, as all Dutch Stars have hydronic heating standard and most Dutch Star are ordered with the optional residential refrigerator. Requirement for propane, as a result, is much less.

CABINETS AND FURNITURE

- For 2016, Dutch Star will have two new hardwood finishes:
 - Carmel Cherry Glazed finish replaces Verona Maple offered in 2015.
 - A new 4th wood finish, Sable Maple hardwood (no glazing) is new for 2016.
- A new queen size passenger seat has replaced the passenger seat offered in 2015.
- The roll out shelves under the kitchen sink are now split (two piece) so that one or the other side can be accessed without opening both cabinet doors.
- New model and location of the microwave as well as new hinged swing out pantry boxes are featured in the 2016 Dutch Star 4041 model.
- All furniture, including driver and passenger seats, will be Flexsteel brand instead of the Comfort Fit used in 2015. This decision was driven by the innovation by Flexsteel of powered L-shaped sofas and extendable dinette furniture introduced at Louisville.
- The styling of all furniture is also new in Dutch Star for 2016.
- The standard Extenda-Flex L-sofa in the Dutch Star 4018 model will be powered for easier deployment and storage of the "L" portion of this furniture.
- The standard Extenda-Flex dinette in the Dutch Star 4312 model will be powered for easier deployment and storage of the seating portion of this furniture.
- A new 87" side folding hide-a-bed sofa will be standard in select floorplans.
- A new 92" side folding hide-a-bed sofa will be standard on the 2016 Dutch Star 4002 and 4041 models.

CHASSIS FEATURES

- Diesel Exhaust Fluid (DEF) fill now crosses over to the driver's side on all Dutch Star models for 2016.
- The tow hitch and rating on the 2016 Dutch Star 40' tag and 43' tag models have been increased to 15,000 pounds.
- Freightliner's Ultra-Steer passive steering tag axle (GAWR 10,000#) with drum brakes is now a standard feature on 2016 Dutch Star tag axle models (40' and 43'). The drive axle on these 2016 Dutch Star tag models will also feature Freightliner's V-Ride suspension.
- The engine brake on the Cummins ISL engine in the 2016 has been upgraded to a 3 stage system and replaces the 2 stage engine brake featured in 2015 (added a second switch for the 3 stage brake).
- A new HWH hydraulic leveling system will be featured on all 2016 Ventana tag axle models as a result of the axle changes in these floor plans.
- For 2016, the DEF tank changed to a translucent version and the gauge on the tank was omitted on the Freightliner chassis.

ELECTRICAL FEATURES

- The USB charger in the bedroom has been relocated to the front panel of the night stand, just below the countertop and above the cabinet door.
- A 110 volt outlet has been added on the sidewall above the sofa close to the end wall of the slide out (if one was not already provided in this location).
- A dedicated reading light switch has been added at the sofa location.
- Backlight control to the KIB switch panels have been added in the main bathroom.
- An automatic light has been added to the audio/visual cabinet so that it illuminates when the door is opened.
- The dome light switch has been relocated to the dash center control panel.
- The kitchen and sofa area lights have been combined into one switch panel for 2016.

EXTERIOR FEATURES

- The porch light of the 2016 Dutch Star now features an LED bulb for better illumination.
- The option for large chrome exterior mirrors has been made standard for 2016.
- The sewer hose storage (on 40' tag and 43' tag models) has been relocated to a storage location between the drive and tag axle as a result of the DEF tank fill being changed to the driver's side of the coach.
- The front and rear caps of the 2016 Dutch Star have been increased in height by 2".
- New graphics and paint colors have been developed for the 2016 Dutch Star.
- New horsepower logos provided by Freightliner Custom Chassis have been added to the rear cap of the Dutch Star for 2016.
- In addition to the new horsepower logos, a new "Ultra-Steer" logo has been added to the rear cap on 2016 Dutch Star tag axle models (40' and 43').
- A new egress door has been added to rear bathroom applications. This egress door is in addition to all of the existing egress windows normally found in each floor plan.

INTERIOR FEATURES

- Floor tile in lieu of carpet will be featured in living room slide outs in a staggered pattern from the main floor in kitchen.
- Two new interior decors for Dutch Star in 2016:
 - "Prism" and "Abyss" replace "Noka" and "Toffee" for 2016.
 - "Cordova" is carried over from 2015 to the 2016 model year.
- A better quality close off folding curtain has been added to the Dutch Star 4311 model for 2016.
- The 2016 Dutch Star will feature new wardrobe doors that are more upscale from the ones used in 2015.
- New tile flooring and new kitchen backsplash designs.

CONSTRUCTION FEATURES

- New HWH hydraulic slide out mechanism and full tile flooring (staggered with the tile on the main floor) have been added to the flat floor slide outs in the front living area and kitchen, a feature called "More Floor".
 - Floor heat option will not provide heated floors under the tile in the slide out areas.
 - Dinette areas in these slide outs will have tile all the way under the cabinets to the side wall so that, should a dealer change out dining furniture, sufficient tile in the slide will be available to accommodate this change.
- The entry step well cover in the 2016 Dutch Star is the same as that used in the Mountain Aire for 2015 and will have a bottom liner added to reduce wind noise when travelling.
- The exterior compartments on the 2016 Dutch Star are 2" taller than in 2015.
- The exterior compartment doors under the HWH slide feature "Slipper" hinges that rotate the compartment doors down and away from the compartment when being opened. This allows for easier access to the storage underneath the HWH slides.
- A new steel super structure call The STAR Foundation (Strong, True And Robust), has been engineered for all Newmar diesel product in 2016, excluding King Aire. This new substructure or foundation is added to the chassis and provides more strength and support to allow for more innovation and features that customers want for many years to come.
- A new "Cathedral Ceiling" has been engineered into the rear baths of all bath and a half models on products featuring integrated awnings (excluding Dutch Star 4312 floor plan). This ceiling curves from the sidewall to the center of the roof, and provides 5-7/8" more height in the center of these rear baths.
 - This ceiling structural change is not visible from the ground as it is masked by the integrated Girard box awnings.
- In addition to the Cathedral ceiling providing increased head room in rear bath models, the step up into rear bath models has been lowered by 1-1/2" and provides an additional inch and a half more head room in the rear bath area.
- In rear bedroom models, the engine cover in front of the rear wardrobe will also be 1-1/2" shorter.

PLUMBING AND BATH FEATURES

- The 2016 Dutch Star gets a new bathroom faucet style in the bathroom.
- The skylight has been deleted in rear bathrooms as a result of the curved raised ceiling created in the rear bath area for 2016.

WINDOWS, AWNINGS, VENTS AND DOORS

- The option for power driver's window has been made standard for the 2016 Dutch Star.
- LED lights have been added to the entry door awning.
- A new large kitchen window will be featured in the new 2016 Dutch Star 4041 model.
- A new style Dometic slide out topper with cover will be used on full wall slides (Dometic did not offer an awning with a cover long enough to cover a full wall slide).

OPTION CHANGES

- The free standing dinette table option has been redesigned for the 2016 Dutch Star.
- A new Whirlpool residential refrigerator model is now available on all Dutch Star models in 2016.
 - This residential refrigerator is narrower in width and shorter in height allowing it to fit in slides of all models of Dutch Star in 2016.
 - Water dispenser is located in the door and icemaker is in the freezer.
- A new radius fireplace is now available on select 2016 Dutch Star floor plans (replaces previous version).
- A 3 burner princess gas cooktop is available on Dutch Star in the 2016 model year.
- LED lights under the door side slide out have been added as an option for 2016.
- On the 4369 model, New option for bar with fixed stools and Televator is offered in 2016, now that the sofa with Televator is standard on the door side.
- The option for power flip up sofa under bed (option #K180) is not available on 3736, 4002, 4018, 4041, 4312 and 4369 models, due to the fact that the full wall slides in the models now use the HWH slide mechanism.
- The option for Flexsteel Extenda-Flex L-sofas now features a power motor to make these easier to deploy and stow.
- The option for the Flexsteel Extenda-Flex dinette now features a power motor to make these easier to deploy and stow.
- Optional recliners with table will have the table fastened to the sidewall (used to be loose).
- A new option for 8" high stainless steel baggage door trim and chrome power locks is available in Dutch Star for 2016.
- New option for a hammock kit on Dutch Star for 2016.
 - The hammock kit is loose shipped in the coach, and requires the installation of a mounting bracket on the exterior of the unit.
